THE FIRST 30 SECONDS OF EVERY VISIT

Reception, redesigned for zero friction.

From QR self-registration to live mobile queue tracking, the patient never waits to be told what's next. The clinic never asks for a phone number twice.

LIVE QUEUE · ALL SERVICES

07 Real-time queue management

One screen for OPD, USG, Pathology, ECG and X-Ray queues with service-prefixed tokens. Emergency cases pin to the top with EM- prefix in red.

- Status flow: Waiting → In Progress → Done / Skipped
- Doctor-wise filters & Call-Next / Requeue controls
- Auto wait-time estimation per patient
- Queue auto-resets daily — fresh tokens every morning

01

FRONT OFFICE

Smart Appointments

- OPD/USG/Path/ECG/X-Ray booking
- Walk-in tokens, no signup
- Mandatory phone + age capture
- WhatsApp confirmation

02

FRONT OFFICE

QR Self-Registration

- Reception QR poster
- Patient fills form on phone
- Auto patient ID (PT-prefix)
- Zero manual data entry

03

FRONT OFFICE

Patient Self-Booking Portal

- Guest mode — no login
- Service → Doctor → Date flow
- Doctor specialization & fees
- Instant token on booking

04

FRONT OFFICE

Mobile Queue Tracking

- Position via QR or phone
- Live wait-time estimate
- Auto-refresh every 30s
- Works on any browser

05

RECORDS

Patient Register

- Cross-department timeline
- Days/Months/Years age unit
- Document & report uploads
- Strict cascade-safe deletion

06

REPUTATION

Feedback System

- 4-5★ routed to Google
- Low ratings stay private
- WhatsApp-triggered after billing
- Resolution & status tracking

“We replaced four different tools with SmartHospital India. Queue, billing, lab and WhatsApp — all in one tab.”

— DR. R. SHARMA · 12-DOCTOR POLYCLINIC, PUNE

CHAPTER II Clinical & Diagnostics

OPD, PRESCRIPTIONS AND 50+ REPORT PANELS

The doctor's workspace, refined.

A unified OPD hub with structured vitals, a 500-drug autocomplete, and a diagnostic stack that produces verifiable, QR-stamped PDFs for ultrasound, pathology, ECG and X-Ray.

50+ STANDARDIZED PANELS

11 Pathology Lab Reporting

Multi-panel lab reports with automated H/L flags by age and gender. Each printed report carries a QR for instant authenticity verification.

- CBC · LFT · KFT · Lipid · Thyroid · Urine + 44 more
- Reference range automation by patient profile
- QR-verified — patients scan to confirm authenticity
- Reporting doctor signatures with AI background removal

SONOGRAPHY REPORTING

10 USG Report Generation

Dedicated U-token queue, sub-type templates (Abdomen, Pelvic, OBG, Thyroid, KUB) and multi-image scan attachments — sent to WhatsApp on save.

- Service-isolated queue with own dashboard
- Findings + Impression structured fields
- Branded PDF with letterhead
- Send-and-delete WhatsApp delivery flow

08

CLINICAL

OPD Management Hub

- Vitals → diagnosis → Rx → advice
- Pre-seeded 500+ drug database
- Rx versioning with editor name
- 'Referred' badges, queue statuses

09

CLINICAL

Doctor Prescriptions

- Structured Type/Dose/Days rows
- Bidirectional medicine entry
- Letterhead print with margins
- Rx ✓ badge for completed Rx

10

DIAGNOSTIC

USG / Sonography

- U-token dedicated queue
- Abdomen / Pelvic / OBG / Thyroid
- Scan image attachments
- Branded PDF + WhatsApp send

11

DIAGNOSTIC

Pathology Lab

- P-token dedicated queue
- 50+ pre-configured panels
- Auto H/L flags by age/gender
- QR-verified report authenticity

12

DIAGNOSTIC

ECG Reporting

- E-token dedicated queue
- ECG strip image upload
- Findings + Impression fields
- Referred-by auto-fill

13

DIAGNOSTIC

X-Ray Reporting

- X-token dedicated queue
- Chest / Spine / Limbs / Abdo
- Digital X-Ray attachments
- Branded PDF delivery

14

DIAGNOSTIC**Reporting Doctor Signatures**

- AI background removal (Gemini)
- Multi-signature per report
- Verification endpoint
- Stored in clinic vault

15

RECORDS**Patient Timeline**

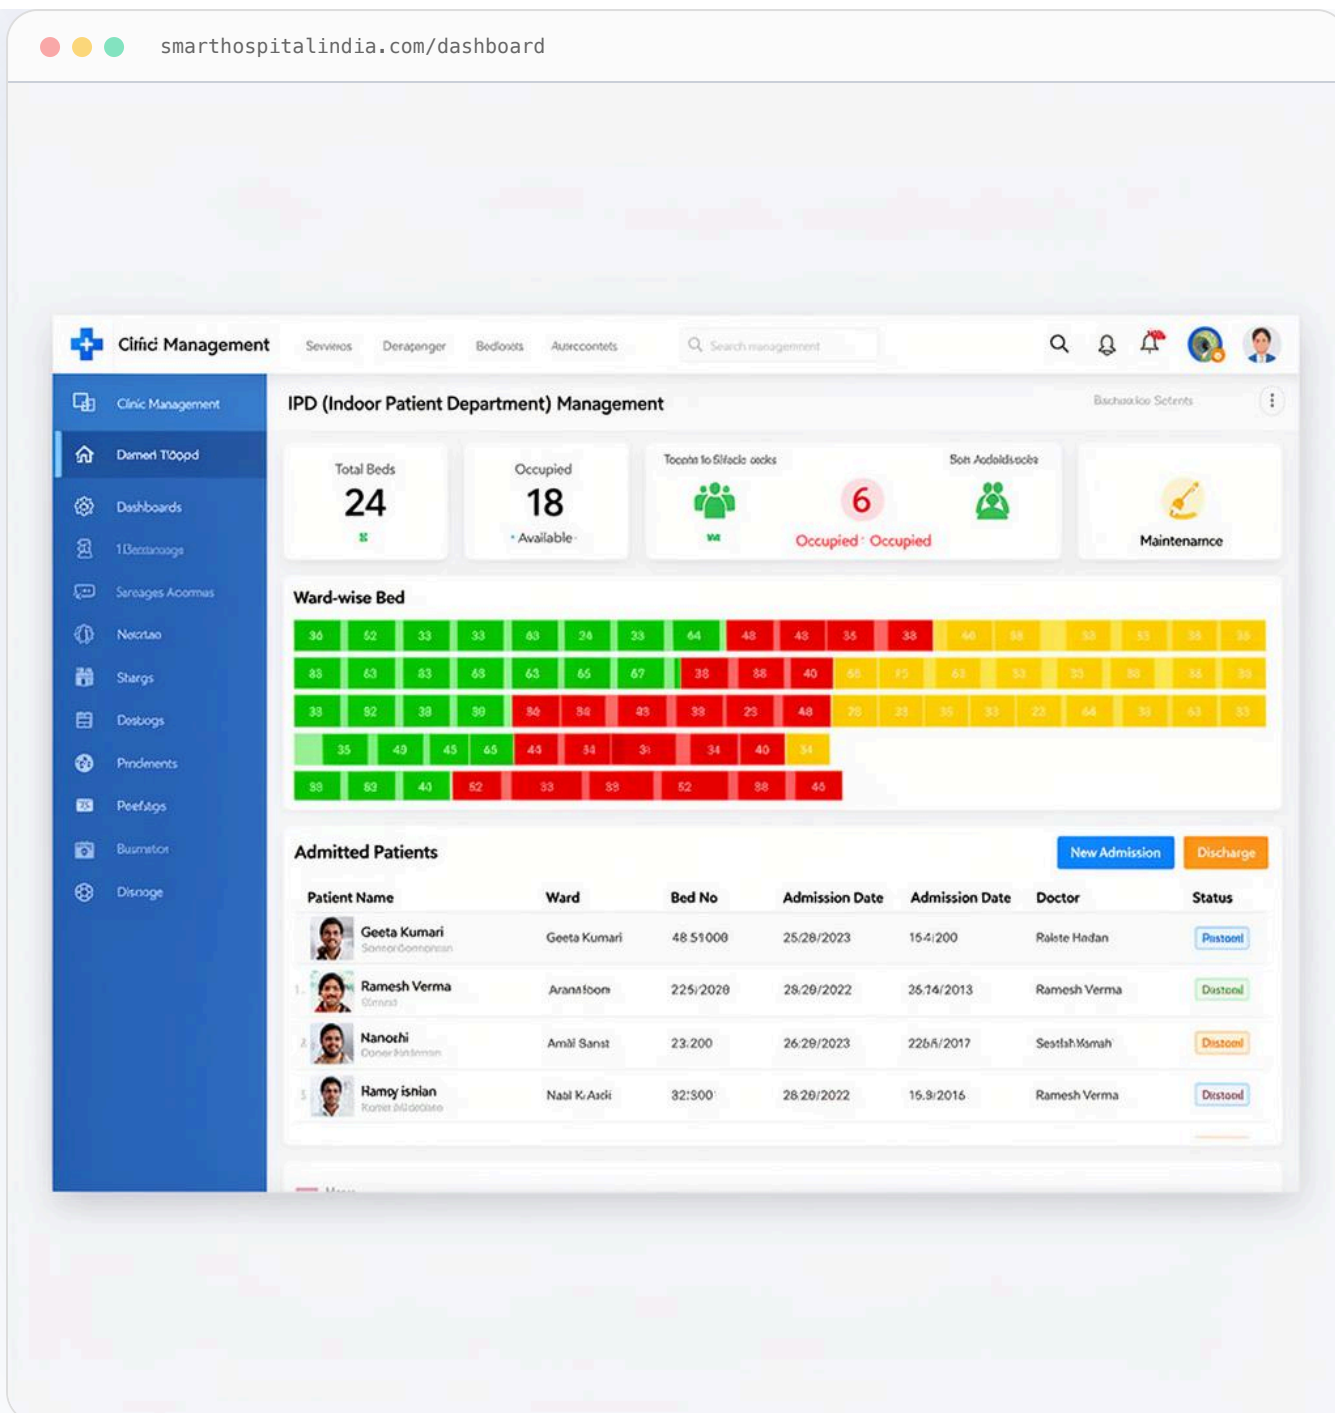

- Unified visit history
- OPD / USG / Lab / IPD merged
- Cross-department filters
- Export-friendly view

CHAPTER III Inpatient Operations**IPD · ICU · EMERGENCY · OT · NURSING**

An entire ward floor, on one screen.

From a visual bed grid to nurse-confirmed medicine administration, every inpatient interaction is timestamped, attributed and ready for NABH audit.

VISUAL WARD MANAGEMENT

16 IPD Comprehensive Management

A live bed map that derives occupancy from the admissions table — never out of sync. Package or itemized billing, TPA tracking, and discharge in a click.

- Available / Occupied / Maintenance grid
- Package vs Daily charge types with auto-detection
- Insurance & TPA pre-auth + claim tracking
- Auto-cleanup on discharge, payout filters

ROUND-THE-CLOCK MONITORING

22 Nursing Charts & Medicine Administration

Shift-wise vitals, fluid balance and a Medication Administration Record (MAR) with second-nurse confirmation and mandatory skip-reasons.

Morning / Afternoon / Night vital tracking

I/O fluid balance — IV, Oral, Urine, Drain

Doctor-ordered medicine auto-scheduling (BD, TDS, QID)

SBAR shift handover notes

16

INPATIENT**IPD Management**

- Visual ward & bed grid
- Package vs Daily charge types
- Itemized billing (Room/Surgery/Pharma)
- TPA & insurance tracking

17

CRITICAL CARE**ICU Clinical Tracking**

- Dedicated ICU bed pool
- Transfer-to-ward workflow
- GCS / Pain / Vent settings
- Bed-deletion safety constraints

18

INPATIENT**Admission Hub**

- Unified 3-step intake
- Emergency → IPD data sync
- Pre-fills patient + insurance
- Single source of admission truth

19

CRITICAL CARE**Emergency Management**

- EM- priority tokens (red)
- Pinned to top of queue
- Auto-link to IPD admission
- Triage notes & vitals

20

SURGICAL**OT Management**

- Surgical notes with auto-duration
- Signature spaces on print
- OT scheduling & booking
- Linked to IPD billing

21

SURGICAL**OT Evidence Capture**

- Video consent recording
- Streamed & stored securely
- Patient-wise evidence section
- Tamper-evident retention

22

INPATIENT

Nursing Charts

- Shift-wise vitals (M/A/N)
- I/O fluid balance tracking
- GCS & pain score
- SBAR shift handovers

23

INPATIENT

Medicine Administration (MAR)

- Doctor order → auto schedule
- Second-nurse confirmation
- Skip with mandatory reason
- Nurse attribution per dose

24

INPATIENT

Discharge Summary

- Auto-pulled diagnosis & Rx
- Print-ready letterhead format
- Final bill snapshot
- WhatsApp delivery

“The medicine administration record alone saved us from three near-miss errors in the first month.”

— MATRON REENA · 60-BED NURSING HOME, INDORE

IV

CHAPTER IV Pharmacy & Inventory

RETAIL · IPD · RETURNS · ASSET REGISTER

A full GST 2.0 pharmacy, plus the store room.

Barcode billing, customer loyalty, expiry return manager and an AI-powered duplicate medicine analyzer — all without paid OCR.

 smarthospitalindia.com/dashboard

GST 2.0 RETAIL PHARMACY

25 Pharmacy Management

Inventory with batch, expiry, MRP and rack location. Doctor prescriptions auto-dispense to the bill. Customer loyalty + udhar credit is built-in.

Barcode / QR scanner — camera + USB

1 point per ₹100 spent loyalty

Expiry Return Manager with credit notes

Duplicate Medicine Analyzer for inventory hygiene

25

PHARMACY

Pharmacy (Retail + IPD)

- GST 2.0 compliant invoicing
- Barcode/QR scanner billing
- Doctor Rx auto-dispense
- Customer loyalty + udhar

26

PHARMACY

Pharmacy Returns

- Sale & purchase returns
- Expiry return manager
- Credit note tracking
- Auto near-expiry detection

27

PHARMACY

Duplicate Medicine Analyzer

- AI inventory cleanup
- Merge duplicate SKUs safely
- Brand vs generic matching
- Zero-cost manual verify

28

OPERATIONS

Inventory & Store

- Master item catalogs
- Purchase orders & GRN
- Department requests
- Stock transfers between units

29

OPERATIONS

Asset Management

- Equipment register
- AMC / warranty tracking
- Depreciation schedules
- Service history per asset

30

OPERATIONS

Department Management

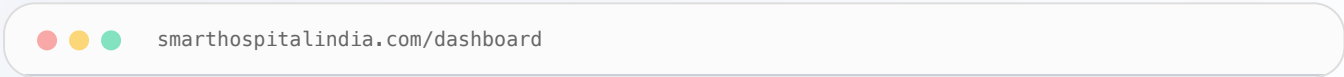

- Wards → Departments mapping
- Bulk bed generation
- Service rate per department
- Doctor allocation

GST · IPD · COMMISSION · PMJAY

Every rupee, accounted and attributed.

Sequential invoice IDs from PostgreSQL triggers, 18% GST baked in, IPD package-vs-itemized splits and Ayushman Bharat claim formats pre-configured.

smarthospitalindia.com/dashboard

SMART BILLING ENGINE

31 Billing with GST 18%

Three-tier pricing grid, walk-in quick billing with inline patient creation, and full Advance / Pay-Due lifecycle. Staff attribution on every invoice.

- INV- sequential IDs via DB triggers
- Multi-method payment — Cash / UPI / Card / Bank
- Walk-in patient add directly inside invoice dialog
- JSONB-normalized service rates

31

FINANCE

Smart Billing + GST

- INV- sequential numbering
- 18% GST mandatory
- Walk-in quick billing
- Advance / Pay-Due tracking

32

FINANCE

IPD Billing Integration

- INV-IPD- prefixes
- Room / Bed auto-detect
- Package + itemized split
- Insurance claim formats

33

FINANCE

Commission Management

- Referral agent register
- Auto payout calculation
- Agent-wise reports
- Patient commission system

34

FINANCE

Quotation Engine

- Subtotal → Discount → GST flow
- Master Admin estimation tool
- Email quote with branding
- Convert to invoice

35

FINANCE

Ayushman Bharat / PMJAY

- Pre-configured packages
- Claim format support
- State scheme variants
- Empanelment-ready exports

VI

CHAPTER VI People & HR

8 ROLES · 30 MODULE PERMISSIONS · PAYROLL

From doctor on-call to PF challan.

A complete role-based access system with eight predefined roles, payroll that handles PF / ESI / PT / TDS, and clean separation between medical and non-medical staff workflows.

36

PEOPLE

Doctor Management

- DR- prefix IDs
- Schedule & fees
- View-only on primary records
- Personal website per doctor

37

PEOPLE

Staff & Roles (8 RBAC)

- Admin, Doctor, Reception, Nurse,
- Accountant, Pharmacy, Lab, Ward-Boy
- 30 distinct module permissions
- ST-/NR-/AC- prefix IDs

PEOPLE

HR & Payroll

- PF / ESI / PT / TDS compliant
- Automated payroll runs
- Attendance + leave
- Medical vs non-medical split

ROLE-BASED ACCESS

8 roles, 30 modules, zero overlap.**Admin**

Full control, all settings

Doctor

Clinical, view-only billing

Reception

Appointments, billing, registration

Nurse (NR-)

MAR, charts, vitals

Accountant (AC-)

Billing, payouts, reports

Pharmacy

Sales, inventory, returns

Lab

Pathology, USG, ECG, X-Ray

Ward-Boy

Bed status, transport

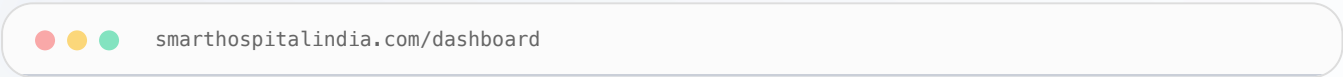

VII

CHAPTER VII Communications & Marketing

TV DISPLAY · WHATSAPP · WEBSITE BUILDER

Talk to patients in their language. Literally.

A Chrome-cast-ready TV queue display with TTS in 7 Indian languages, transactional WhatsApp on 7 standardized events, segmented campaigns, and an auto-generated clinic website.

smarthospitalindia.com/dashboard

LOBBY EXPERIENCE

39 Live TV Queue Display

A 1280px-locked kiosk display with 10 themes, branded with your hospital logo, paired in seconds with a 4-digit code.

- Now-Serving + Next-In-Queue cards per doctor
- 10 kiosk themes (dark teal, deep blue, forest, cream, etc.)
- TTS in Hindi, English, Bangla, Tamil, Telugu, Marathi, Gujarati
- Health tips ticker + custom clinic announcements

39

PATIENT EXPERIENCE**Live TV Queue Display**

- 1280px display lock
- 10 kiosk themes
- Now-Serving + Next-In-Queue
- Chrome Cast + 4-digit pairing

40

PATIENT EXPERIENCE**TTS Voice Announcements**

- HTML5 Audio engine
- 7 Indian languages
- Silent Web Audio unlock
- Custom announcement strings

41

COMMUNICATION**WhatsApp Notifications**

- 7 standardized templates
- Async trigger on events
- Booking / Report / Receipt
- Free included

42

COMMUNICATION**WhatsApp Campaigns**

- Segmented patient targeting
- Scheduled delivery
- Cron-processed queue
- Open / read tracking

43

MARKETING**Hospital Website Builder**

- /site/:slug auto-built
- Online appointment booking
- Approval workflow
- Brand-aware font system

44

MARKETING**AI Logo Background Removal**

- Gemini-powered
- Transparent PNG output
- One-click clinic branding
- Used in TV + reports + invoices

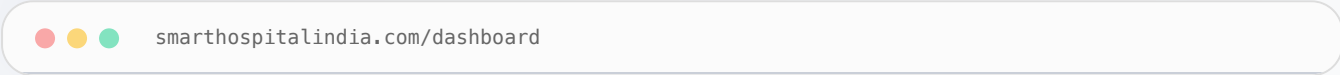

VIII

CHAPTER VIII Intelligence & Governance

ANALYTICS · MIS · AUDIT · BACKUP · SUBSCRIPTION

The clinic owner's command deck.

Real-time analytics, MIS reports for daily census and revenue, NABH-grade audit logs, scheduled Google Drive backups, multi-branch hierarchy and a Razorpay-powered subscription system.

A mockup of a browser window with three colored dots (red, yellow, green) on the left and the URL "smarthospitalindia.com/dashboard" in the address bar.

REAL-TIME INTELLIGENCE

45 Analytics Dashboard

Service-wise revenue, IPD stats with trend badges, doctor performance tables and peak-hours analysis. Promise.all parallel fetch strategy for sub-second loads.

- Date range filters with comparison periods
- Dynamic PDF report file naming
- Service-wise + doctor-wise revenue breakdown
- Doctor patient analytics with trend arrows

A mockup of a browser window with three colored dots (red, yellow, green) on the left and the URL "smarthospitalindia.com/dashboard" in the address bar.

NABH-GRADE COMPLIANCE

48 Audit Logs

Every create / update / delete logged with user, IP, timestamp and an old-vs-new data diff. MERGE highlighting for batch operations, 7-day rolling retention.

Table-wise filters across patients / billing / Rx / Rx

Old data vs new data side-by-side

IP address logging for security investigations

Hospital-level isolation — never leaks across tenants

smarthospitalindia.com/dashboard

REPUTATION ENGINE

06 Patient Feedback System

Dual-path routing — 4-5★ patients get redirected to Google Reviews, sub-threshold ratings stay private with resolution tracking.

Configurable star threshold for Google routing

WhatsApp-triggered after OPD billing or IPD discharge

Resolution notes + staff attribution

Public shareable link, works on any device

45

INTELLIGENCE

Analytics Dashboard

- Service-wise revenue
- IPD stats with trends
- Peak hours + doctor performance
- Dynamic PDF report names

46

INTELLIGENCE

MIS Reports

- Daily Census report
- Revenue & doctor MIS
- Promise.all parallel fetch
- CSV / PDF export

47

INTELLIGENCE

Doctor Patient Analytics

- Per-doctor trends
- Repeat-visit ratio
- Referral source analysis
- Compare across periods

48

COMPLIANCE

Audit Logs

- 7-day retention
- MERGE highlighting
- IP + user attribution
- Old vs new data diff

49

COMPLIANCE

Backup & Restore

- On-demand + scheduled
- Google Drive sync
- One-click restore
- Encrypted at rest

50

GOVERNANCE

Subscription System

- valid_until enforcement
- Manual payment logs
- pg_cron expiry alerts
- Razorpay integration

51

GOVERNANCE

Multi-Branch Hierarchy

- parent_clinic_id linking
- Shared patient pool
- Per-branch service toggles
- Centralised reporting

52

COMPLIANCE**Video Consent**

- Patient-recorded consent
- Streamed & stored
- Per-procedure linking
- Delete with audit trail

53

GOVERNANCE**Notifications & Alerts**

- Realtime bell on every page
- Support ticket badges
- Subscription warnings
- Activity log feed

54

GOVERNANCE**Support Ticketing**

- Bidirectional tickets
- Realtime status badges
- Master Admin reply chain
- Email + WhatsApp ack

THE PLATFORM UNDERNEATH

Built like infrastructure, sold like software.

Multi-tenant from day one with PostgreSQL Row-Level Security. PWA-installable. Service-worker cached. Edge functions for heavy lifting. Designed to scale from a 1-doctor clinic to a 200-bed multi-branch hospital without rearchitecting.

**Installable PWA**

Install on any device from the browser. Works offline with NetworkFirst caching.

**Multi-tenant RLS**

Strict clinic_id isolation enforced at the PostgreSQL layer, not the app layer.

**Branded printing**

Every report, invoice and discharge summary respects your letterhead.

**Version history**

Every prescription, report and invoice keeps a full edit timeline.

**Multi-branch hierarchy**

parent_clinic_id linking — share patients across branches, isolate finances.

**Backup & restore**

On-demand + scheduled Google Drive backups with one-click restore.

**GST 2.0 compliance**

GSTR-1, GSTR-2A, GSTR-3B registers with a health score.

**QR report verification**

Patients verify any printed report's authenticity by scanning its QR.

**Edge function automation**

pg_cron + Edge Functions for subscription alerts, campaigns, backups.
